

Technical data sheet

Stainless Steel Pressure Regulator
Compressed Air(MSS-R)

Technical Data:

Operating Parameters	
Inlet Pressure	7-426PSI
Outlet Pressure	7-426PSI
Design Proof Pressure	850PSI
Flow Capacity:	1/4 1950 L/min (MSS-R-04) 3/8 2250 L/min (MSS-R-06) 1/2 2520 L/min (MSS-R-08)
Operating Temperature	-10C-70C
Connection Thread	NPT
Regulator Construction	Piston
Weight	1400g

Media Contact Materials:

Body	316 Stainless Steel
Pressure Gauge Material	Case: 304 Stainless Steel Thread: 316 Stainless Steel

Technical data sheet **Stainless Steel Pressure Regulator
 Compressed Air(MSS-R)**

Included Accessories	Pressure Gauge	Plug
	Mounting Bracket	Hex Head Screws x2

Features and Benefits:	• For high pressure use
	• Corrosion and chemical resistance
	• Accurate and sensitive pressure setting

Regulator Flow Charts:

MSS-R-04
